and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I use this phone only for emergencies. The impact of the increase could limit my ability to maintain my cellular phone service. If the charge was for state-to-state calls, it would not cause any harm to me. However, if it applies to all calls, I might not keep my service. Then, whenever my truck (my OLD truck) breaks down in the middle of nowhere, what am I going to do?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Daeven Jackson
